## Water Safety & Lifeguard Services

Water safety and support will be provided under the direction of the East Bay Regional Park District (EBRPD) Aquatics Supervisor and lifeguards, including lifeguards, rescue boards, and two motorized boats. All EBRPD guidelines and criteria for open water swim events will be adhered to. The swim area (Keller Cove) is not subject to strong bay currents or significant boat traffic, as it lies off the main tidal channels in a relatively protected cove. Any boats in the area will be precluded from entering the swim area. All participants will be required to wear a brightly-colored swim cap (to be provided), and will receive body-marking for swimmer identification. The use of swim fins, pull buoys or other swimming devices will not be permitted. Personal escorts will only be permitted for handicap swimmers, with approval from the EBRPD Aquatics Supervisor and RPM Race Safety Officer. Note: Under penalty of disqualification, swimmers may not make deliberate contact with craft, craft operators, and/or any physical features on or near the course during the swim.
